

Building Ambitious Applications

Integrated with ArcGIS Online/Portal:

Deployment

Markham Shofner

Software Dev, DC R&D Center

Agenda

- set people up with surge.
- do a deploy. tweak some things.
- show them how easy it is to push changes on the fly
- and then demo a deploy of our app

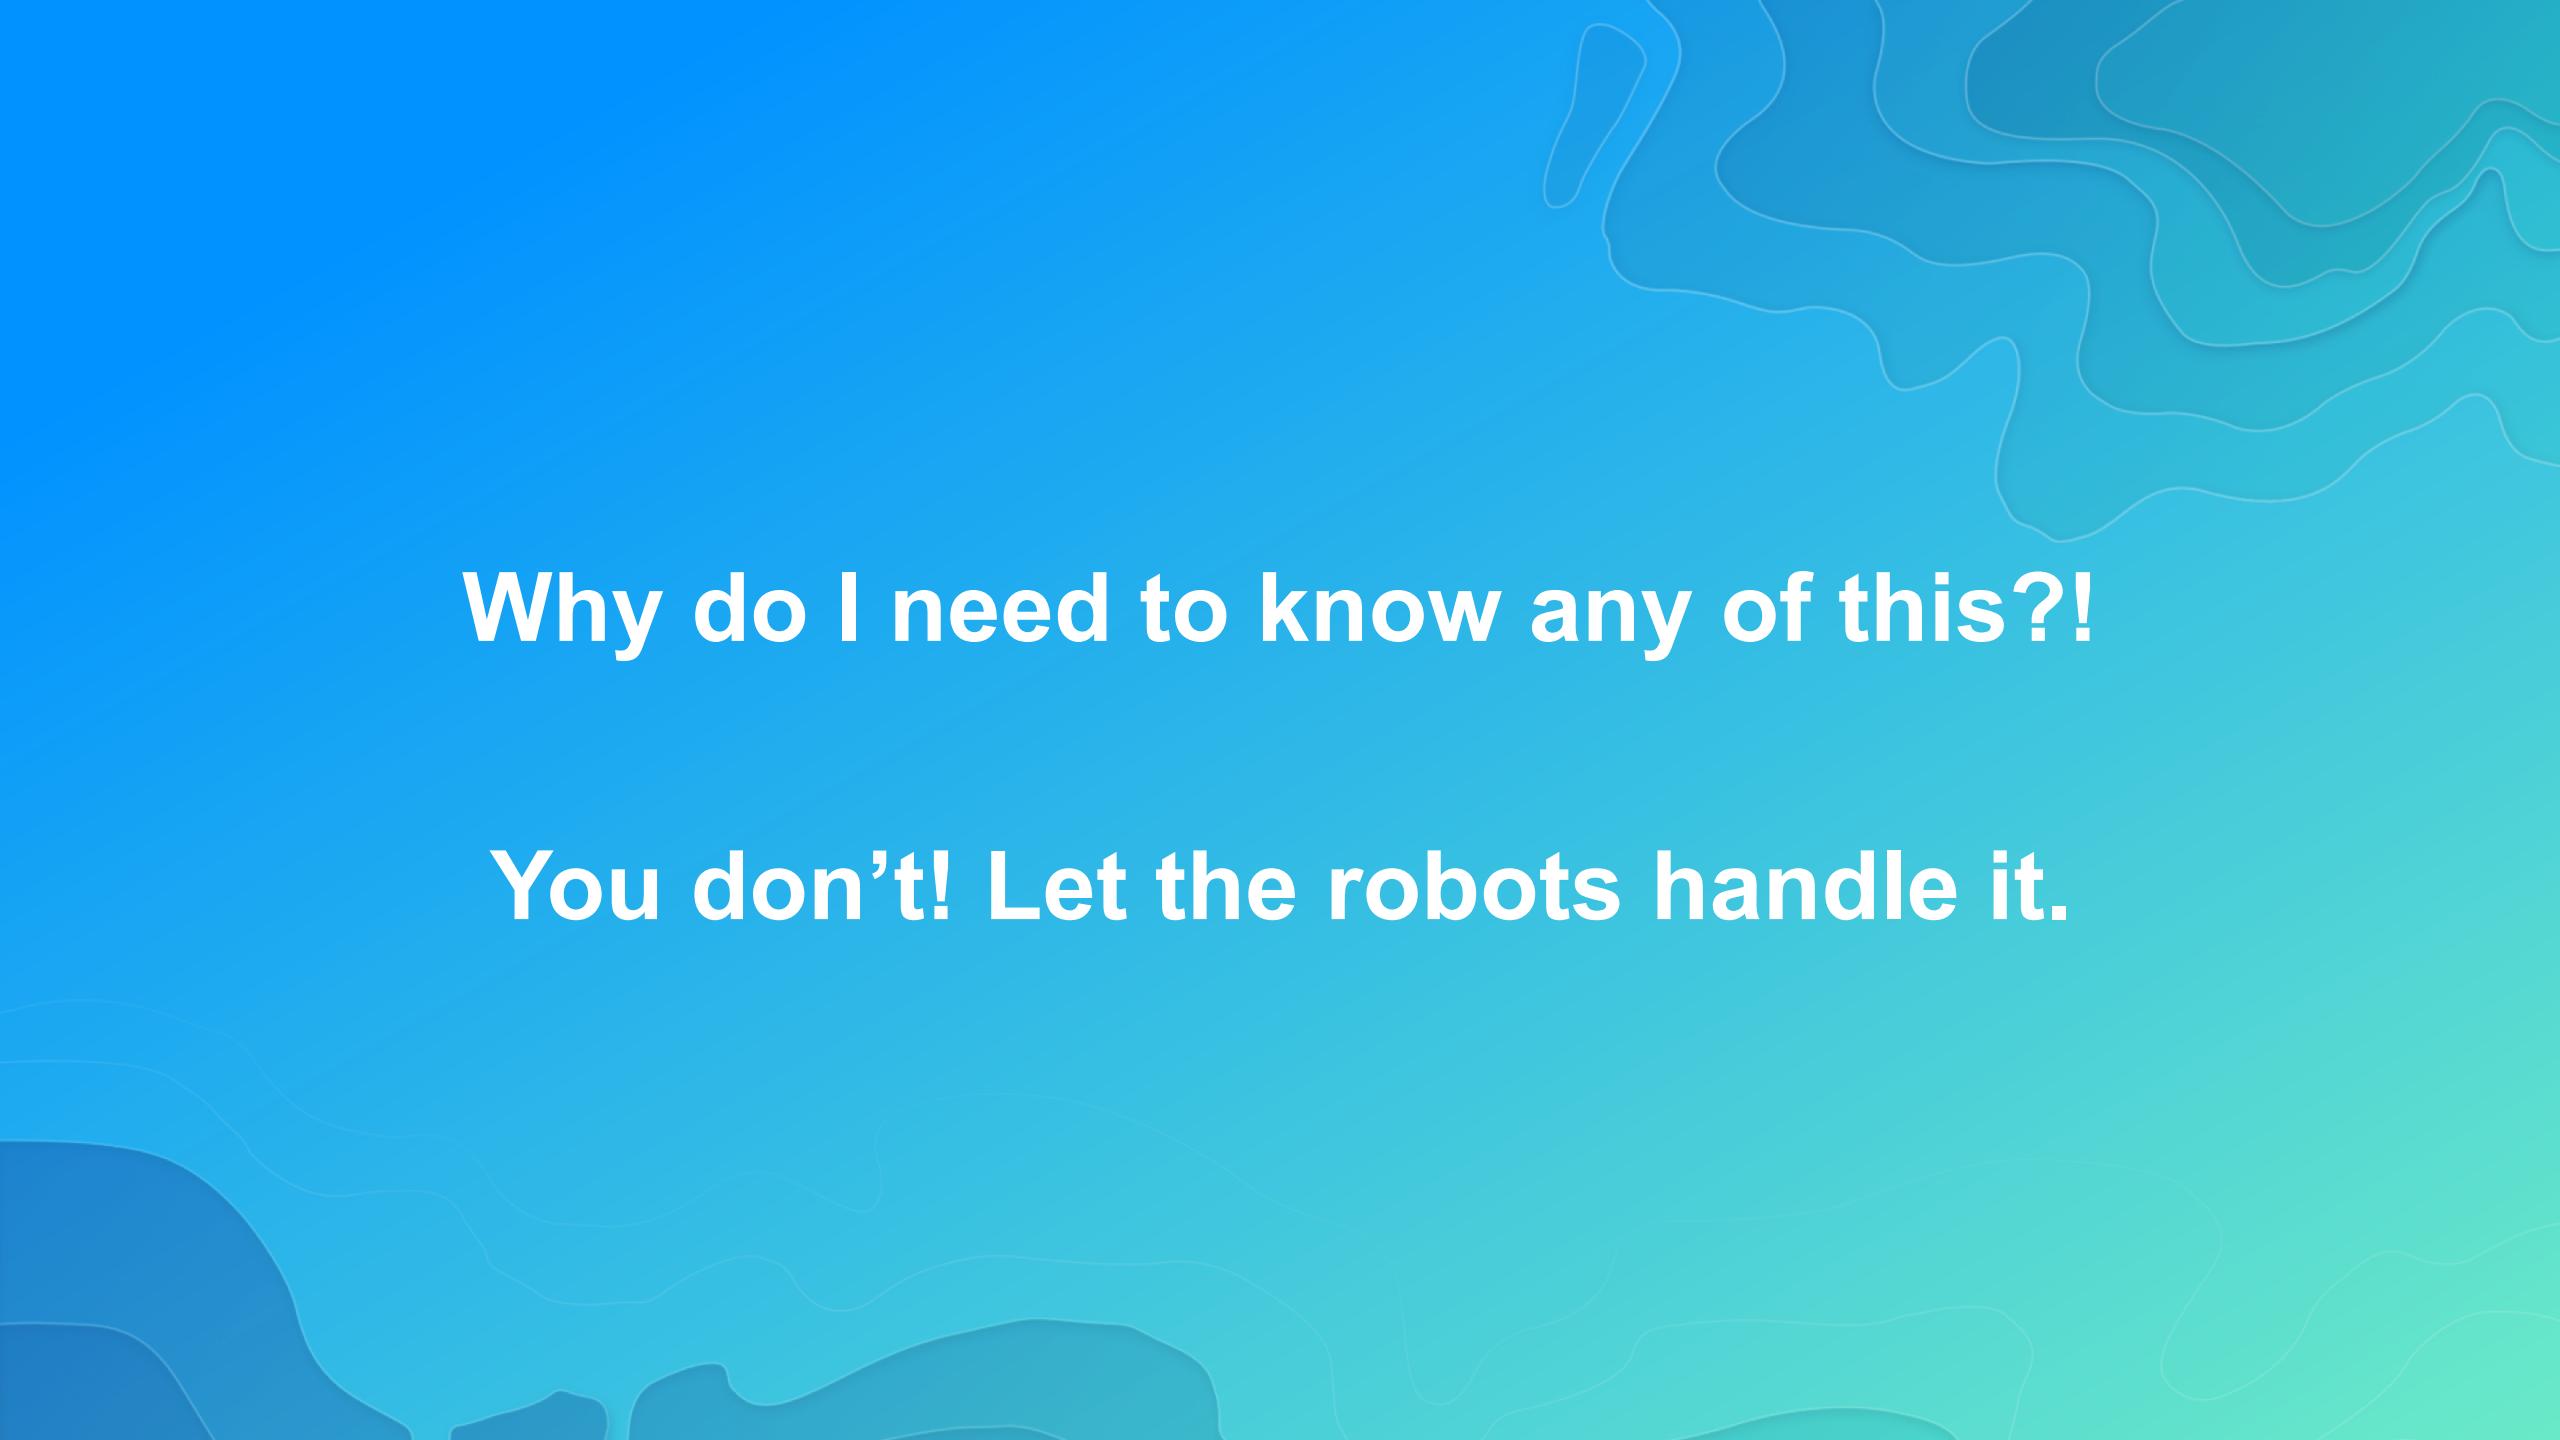

Section Header

SUBHEAD INFORMATION

Deployment

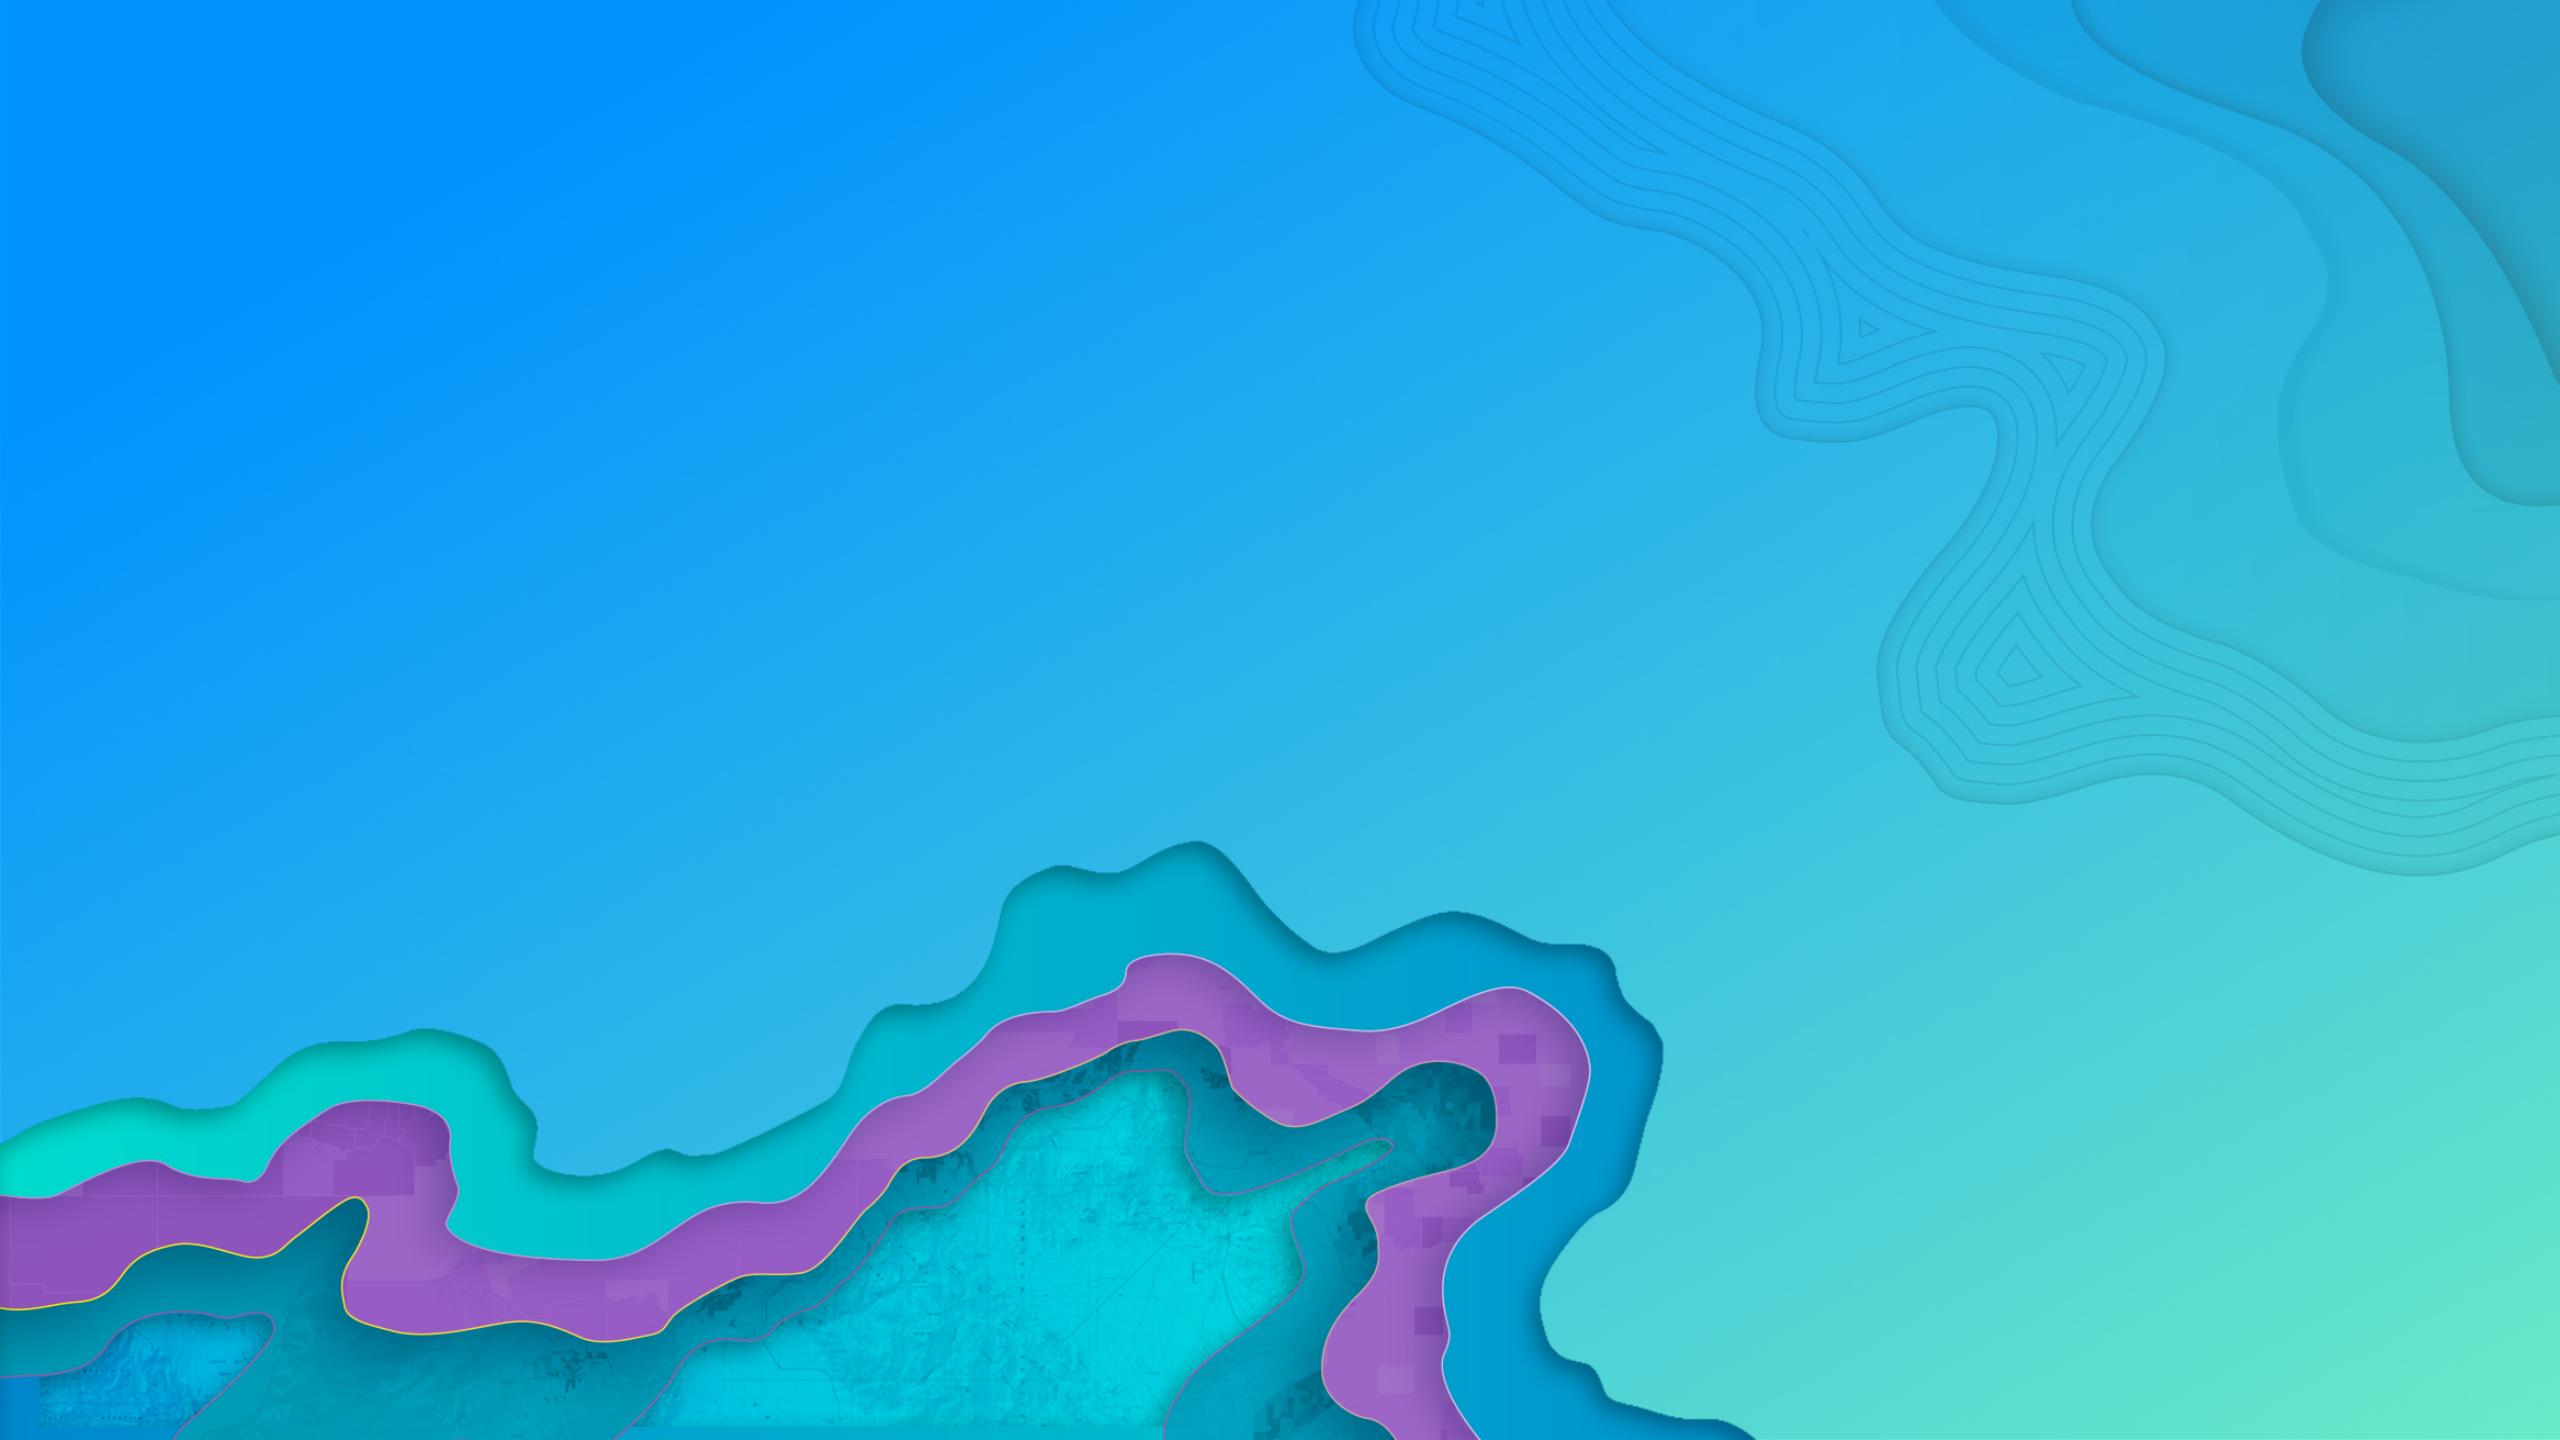

General Process

- Build application
- Fingerprint assets
- Gzip assets
- Optimize images
- Upload to webserver

Why do I need to know any of this?!

You don't! Let the robots handle it.

A straightforward solution

Surge.sh

- Easy
- Free
- But can it support enterprise level applications?

```
$ ember install ember-cli-surge  
$ ember surge
```

What the Hub team does

Ember-cli-deploy

- Flexible
- Extensible
- Composable
- More complexity

esri

**THE
SCIENCE
OF
WHERE**

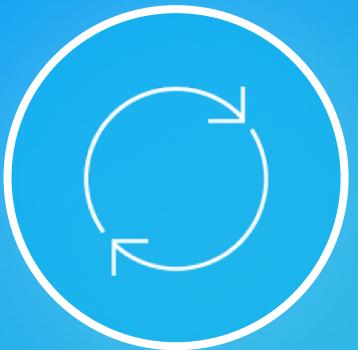

“Transform how our customers engage
and collaborate with the **community** by
focusing on goal-driven **initiatives**.”

Hub Product Statement

Today's Communities Need Collaboration

People

Process

Data

Technology

What is an initiative?

Convene

- Create events where the community can meet
- Form initiative teams
- Create solutions together

Monitor

- Measure KPIs over time
- Share outcomes
- Learn what actions & policies make an impact
